## PROFESSIONAL SUMMARY

**Certified Java Professional with project experience in core and advanced Java and MySQL** Proven communicator, committed to surpassing project goals and client expectations. Successfully orchestrated projects like Blogging portal and Hotel Management website, **spring, spring boot, Servlet, React JS** and **Java frameworks**. Enhanced efficiency and elevated customer experiences, driving a 30% conversion rate increase. **Ready to deliver impactful solutions for your organization's success.**

## SKILLS AND ACCOMPLISHMENTS

- **Core Java:** Strong grasp of object-oriented programming, data structures, and algorithms.
- **Advanced Java:** Knowledge of multithreading, collections, JDBC, serialization servlet and JSP.
- **Java Frameworks:** Familiarity with spring (spring core, spring JDBC, spring MVC), spring boot (rest API, spring microservice, spring security, JWT(JSON web tools), OAuth2.0, Spring JPA).
- **Database:** Proficient in SQL queries, database design, Oracle, MySQL, PostgreSQL and Database integration.
- **Programming Languages:** Knowledge of C, C++, Java
- **Web Development:** Understanding of HTML, CSS, JavaScript, Bootstrap, React JS, Thyme leaf, Rest API.
- **Agile Methodology:** Experience with Agile development.
- **Version Control:** Knowledgeable in basic GIT for code management and collaboration.
- **Testing & Debugging:** Skilled in unit testing, Integration testing, debugging, and code quality.
- **Problem Solving:** Strong analytical skills for resolving complex technical challenges, Good logical and technical knowledge, Best in team work and time management, Quick learner, Excellent leadership skill.
- **Communication:** Effective collaboration and communication with teams, stakeholders, and clients.
- **Continuous Learning:** Proactively staying updated with emerging technologies and industry trends.
- Working in 4 member's team frontend on java application building, highlighting strong problem-solving skills and technical expertise.

## Project

### Project1 | Blogging Portal

Developed a Java-based Blogging System Portal for Institution purposes using Spring, leveraging the power of Java (Spring Boot, spring JPA, React JS, Bootstrap).that project has to use a monolithic structure user. Transformed the online blogging user experience by enabling seamless and secure, reducing time for results by 90% and improving efficiency by 40%.

### Responsibilities:

- Developed and implemented Blogging System portal using the Java, utilizing MySQL for data storage, HTML, CSS, JavaScript and Bootstrap for frontend development, and java servlet and JSP for backend development.
- Collaborated closely with cross-functional teams, including designers and QA engineers, to ensure seamless integration and high-quality deliverables.

- Integrated Java applications with databases (e.g., Oracle, MySQL), optimizing database schemas and executing SQL queries for seamless data retrieval and storage
- Achieved an on-time delivery rate utilizing By Agile methodologies and delivering software modules within tight deadlines
- Conducted thorough testing and debugging to identify and resolve issues, resulting in a stable and reliable examination portal system.
- Actively participated in code reviews, providing valuable feedback to improve code quality and maintain best practices in java application development. Improved software quality by decreasing post-release defects

Project Link:- <https://github.com/Avinashpawar021995/Blogging-System/tree/master>

### **Project2 | Hotel Management**

Developed a Java-based Hotel Management System for customer management purposes built using Spring Boot, Spring JPA, spring MicroService, and React JS. In project management customer orders easy to handle customer orders, customer feedback, bill systems, and customers' required reducing time for results by 90% and improving efficiency by 40%.

#### **Responsibilities:**

- Developed efficient and scalable Java and JavaScript code, leveraging process studio, resulting in a 20% improvement in application performance.
- Resolved critical bugs and issues through meticulous debugging and testing, ensuring a bug fix success rate of 95% and minimizing production incidents by 30%.
- Integrated Java applications json with databases (e.g., Oracle, PostgreSQL), optimizing database schemas and executing SQL queries for seamless data retrieval and storage.
- Conducted code reviews, resolving 90% of bugs and enhancing bot performance by 25%.
- Achieved an on-time delivery rate of 95% by utilizing agile methodologies and delivering software modules within tight deadlines.
- Reduced man power and work completion time by 95% through collaboration with cross-functional teams for seamless integration.
- Improved software quality by decreasing post-release defects by 20% through close collaboration with QA teams.

## **EDUCATION**

### **Bachelor of Computer Engineering (BE)**

Shree Ramchandra College of Engineering, Pune, Maharashtra

### **Graduation Year (2022)**

75.27%

### **Diploma in Computer Science (MSBT)**

Balaghat polytechnic, Latur, Maharashtra

### **Diploma Year (2015)**

66.94%

## **CERTIFICATIONS**

- Full Stack Java Developer
- MySQL certification
- React certification
